"About a year and eight months ago my baby, aged ten months, was sitting on the mat beside the fender and we were preparing the breakfast when the fryingpan full of boiling grease was upset and it went all over one side of the baby's face and head. One of the family ran and wiped the scaid with a towel and you may think what a meas she made, pulling the entire skin off. We took her to a chemist who told us to get a dector, which w did. He tended her a week and gave me some stuff like lard to put on. But it all festered and I thought the baby was disfigured for life. A woman close beside me told me to try Cuticura Cintment. I used about three boxes and it was wenderful how it healed. In about five weeks it was better and there wasn't a mark to tell where the sould had been. People used to sak me if that was the baby that was scalded and they would hardly believe me when I told them she was and what cured her face. Her skin is just like velvet and I have never been without Cuticura since, Cuticura cured three other children of ringworm besides, so I have good cause to thank it for what it has done.
